DETAILED ACTION

Status of the claims

1. Claims 1-4, 6, 9 and 17 have been amended, claims 18-52 have been cancelled and claim 53 have been added as requested in the amendment of Paper No.11. Claims 1-17 and 53 are pending in the instant application.

Election/Restrictions

2. Applicant's election with traverse of Group I in Paper No. 11 is acknowledged. The traversal is on the ground(s) that the examinations of Groups I, II and III together would be appropriate. The traversal is moot in view of the cancellation of non-elected claims 18-52.

Claims 1-17 and 53 are under examination in the instant office action.

Drawings

3. Figure 15 of the instant application is presented on separate pages or in separate panels. 37 C.F.R. § 1.84(u) (1) states that when partial views of a drawing which are intended to form one complete view, whether contained on one or several sheets, must be identified by the same number followed by a capital letter. For example, the two pages of Figure 15 in the instant specification should be renumbered "Figure 15A" – "Figure 15B" rather than "Figure 15". Applicant is reminded that once the drawings are changed to meet the separate numbering requirement of 37 C.F.R. § 1.84(u) (1), the specification should be amended to change the Brief Description of the Drawings and the rest of the specification to refer to each Figure accordingly.

Specification

4. The use of the trademarks has been noted in this application (pages 34 and 37, for example). It should be capitalized wherever it appears and be accompanied by the generic terminology.

Although the use of trademarks is permissible in patent applications, the proprietary nature of the marks should be respected and every effort made to prevent their use in any manner which might adversely affect their validity as trademarks.

Applicant is advised to carefully check the rest of the specification for other possible use of trademarks.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-17 and 53 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is vague and indefinite for being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are: a comparison (control) step and the step that identifies inhibitors of neuronal degeneration. The nuclear factor kappa B is involved in the mediation of a plurality of pathways associated with inflammation, apoptosis and oxidative stress response (page 16, lines 18-30 of the instant

specification). If, according to the claimed method, a candidate molecule is capable to induce NF- κ B activation in cells transfected with Par-4 and PS, for example, it is not clear how such activation can be estimated without comparison to an adequate negative control (for example, non-transfected cells) and positive control (for example, using a known NF- κ B inducer).

6. Claim 1 is further indefinite for use of the term "a Par-4 polynucleotide". Such term does not have usual meaning in the art and may be confused with other "Par-4" or "PAR4" terms (see for example US Patent No.6,111,075). Applicant is advised in order to avoid this ground of rejection to specifically identify the term "Par-4" in the claims and provide a sequence with a sequence identifier.

7. Claims 2-27 and 53 are indefinite for being dependent form the indefinite claim.

Conclusion

8. No claim is allowed.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Olga N. Chernyshev whose telephone number is (703) 305-1003.

The examiner can normally be reached on Monday to Friday 9 AM to 5 PM ET.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Yvonne Eyler can be reached on (703) 308-6564.
